

When it comes to health care benefits, **there's no difference**

The Teamsters are promising team members they will get a better or cheaper health care plan than non-union team members. Teamsters don't specialize in health care and their track record doesn't support their promises.

It is common for union-represented team members to be on the same health care plan as all other team members in a health system. That's how it is at Ascension Genesys. That's how it is at Corewell Health.

FACT

Nurses at Genesys who are represented by the Teamsters are in **the same Ascension health care plan that applies to all of the system's non-union team members.**

FACT

Corewell Health has four union bargaining units with four different collective bargaining agreements. All four of those agreements have **the same health care plan as all other Corewell Health team members.**

FACT

In areas that are unionized at Corewell Health East, their contracts include language that give us the right to **align their benefits annually with all other team members.**

**Ask questions. Stay informed.
Get Teamsters' promises in writing.**
