

Union Promises Don't Add Up

A recent Teamsters flyer says:

"It's very realistic to achieve an average 3.5% wage increase per year at the negotiating table..."

The Teamsters' Promise

3.5%

(annual wage increase)

The Reality for Corewell Health Nurses

Average Annual Wage Increase*
(no union contract, no monthly dues)

2021	4.6%
2022	11.0%
2023	7.0%
2024	3.0%

* Includes general pay increase (GPI) and average market adjustments for each calendar year

Don't forget that Teamsters' **monthly dues** are **2.5 times** your base hourly wage rate and would reduce your take home pay EVERY month.

Bargaining is risky and **nothing is guaranteed**. Once an agreement is reached, that is the maximum. There is no flexibility to make adjustments if the market moves.

The Teamsters' promises don't add up.

**When you have the facts,
the choice is clear.**
